RAPID-FIRE SUPPRESSION FOR ENCLOSED HIGH-RISK SPACES

No water. No pressure. Immediate response.

SuppressAll FS2-MAX is a portable, non-pressurized aerosol fire suppression unit that quickly suppresses Class A, B, and C fires in enclosed spaces. Engineered for reliability in the most demanding environments.

CORE CAPABILITIES

 RAPID SUPPRESSION Suppresses fires in seconds	 ALL FIRE CLASSES Effective on Class A, B & C	 COVERS UP TO 5,300 CU FT Ideal for enclosed high-risk spaces	 NO WATER DAMAGE Prevents costly secondary damage
 ENVIRONMENTALLY SAFE Non-toxic, non-corrosive, non-conductive.	 LONG-TERM READY 15-year shelf life, 10-year battery life	 EXTREME RELIABILITY Operates in extreme conditions down to -65°F	 SIMPLE TO DEPLOY Pull pin, throw, and go

IDEAL FOR GOVERNMENT APPLICATIONS

 FACILITIES Protect critical infrastructure, server rooms, and electrical spaces.	 SECURITY Enhance protection for secure areas, checkpoints, and border operations.	 FIELD OPERATIONS Deploy in remote sites, mobile assets, and temporary installations.	 EMS & FIRST RESPONDERS Equip vehicles and response teams for fast, effective suppression.
